	19	11:00-1:00	Harrisonville (Health Department)
	26	11:00-1:00	Harrisonville (Health Department)

These will be the last **walk-in** immunization clinics offered by the Cass County Health Department until further notice. Please read the following message for information about all future clinics.

## **Important Notice Regarding Immunization Clinics sponsored by the Cass County Health Department (CCHD)**

**Effective 1 April 2010**, immunization clinics will no longer be provided on a walk-in basis by the CCHD. Instead, they will be **by appointment only**. We deeply regret the inconvenience that this will likely cause but significant personnel cuts have forced the health department to make these changes. If you have private medical insurance that covers the cost of vaccines, you will be expected to receive them from your provider. If your child is participating in Mo HealthNet (formerly MC+) and you see a private provider for the vaccines, please continue to do so if possible. The clinic appointments will be targeted at those who are uninsured, those on Mo HealthNet without a private provider and those with insurance that does not cover the cost of the vaccines. For this last group, there will be a \$5.00 **per child** charge for vaccines. Payment should be made by check or exact change. Vaccinations for those 19 years or older will continue to incur a charge based on the particular vaccine that is given. Appointments can be made by calling 816-380-8431/8432. Thank you for your cooperation.
